

Exposure Prone Procedures and Occupational health

To be completed by Occupational Health/ GP/ Health Centre

	Evidence of Immunization/ vaccine /serology (result + initial of Occ health provider)	Documentation provided (Yes/No)
Hep B x3 vaccines		
Hep C		
Measles		
Mumps		
Rubella		
Varicella		
Influenza		
BCG scar/ Mantoux test/ TB (specify which)		
COVID 19 Vaccine		
Other: Hep A		
Other: Pertussis		
Other: Diphtheria		
Other: Tetanus		
Other: Polio		

Tests must be carried out on identified validated samples (IVS). Only results from an Irish or UK occupational health service that has confirmed the identity of the person by checking appropriate photographic ID e.g. passport, driving license or a photographic ID card will be accepted.

Your Consultant or Manager will be advised that you cannot undertake Exposure Prone Procedures (EPP) until all the requisite information has been received. If you are aware that you have any infectious disease or other health related condition that may impact upon your work, you have a responsibility to discuss these with the Occupational Health Professional.
